

EYE TESTING

Mr Ben Blacklock BVSc DipECVO MRCVS will be in attendance on each day of the Show.

Testing under the KC/BVA Scheme for:

- 1) Progressive Retinal Atrophy,
- 2) Hereditary Cataract,
- 3) Retinal Dysplasia,
- 4) Collie Eye Anomaly,
- 5) PHPV & other diseases

Gonioscopy/Glaucoma Testing will NOT be available.

NOTE: Mydriatic drops which dilate the dog's pupils will be used in all eye tests. These allow a more satisfactory examination. The drops are short acting and will not affect the performance of the dogs in the show ring (If preferred, dogs may be tested after judging).

Please note that all dogs tested under the above schemes must have an identifying microchip. No certificate can be issued if the chip is not present and readable at the time of examination. Please bring the original Kennel Club Owner Registration Certificate to the eye test appointment

Although any breed can be examined for eye disease, currently only the results of those breeds that appear on Kennel Club Schedule A of the Eye Scheme are sent to the Kennel Club for inclusion on computer records and printing in the Breeds Records Supplement.

All Kennel Club registered dogs eligible: £48.00 per dog (including VAT)

Please complete the slip below and return with remittance to: **Scottish Kennel Club
Paterson House, Eskmills Park, Station Road, Musselburgh EH21 7PQ**
